[Burt's Bees](#)

Burt's Bees does not currently provide a gluten free list for their products. However, they now have a pretty clear labeling format in place. Any ingredient could possibly contain or be contaminated by gluten is clearly labeled with the source (like "wheat" or "oats"). Another important note – even vitamin E is gluten free. Anytime it's derived from a wheat source, it's clearly labeled as "wheat germ oil", etc

[Dove](#)

(www.dove.us) most products are gluten free. Dove has a policy of disclosing information on any allergens in their products.

[Mary Kay](#)

Out of the Mary Kay regular product line, only the Advanced Moisture Renewal Treatment Cream, MK Signature Concealers and Eye Primer, TimeWise Targeted Action Eye Revitalizer and Line Reducer, and Revitalizing Mask #2 **contain glutens**. The rest of the Mary Kay line is free of glutens. This includes all foundations, color cosmetics, pencils, lip products, body products
